ONSET

Quick Start

1
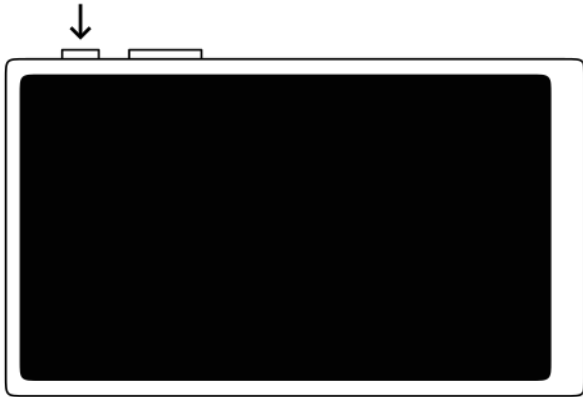

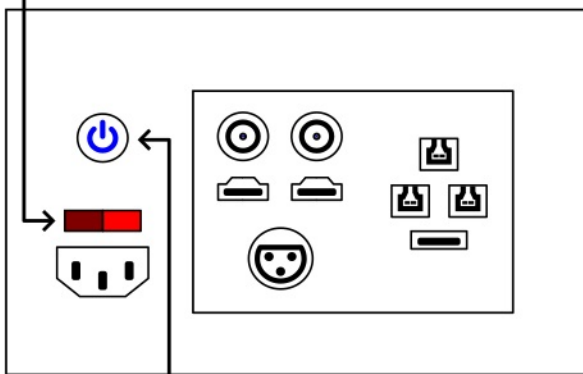

Hold down for 2 sec power on/off

Wait about a minute for the tablet to turn on

2

Plug in the server and toggle the red main power switch
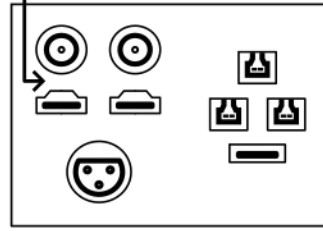

Then press the blue server power button

3

Connect an access point to a patchbay LAN port

4

Connect the video source to a HD-SDI or HDMI ports on the patchbay

5

Start the Onset Assistant application by tapping the icon →

6

After the app connects to the server you'll be taken to the Select User page

Select User   Create New User

↑

Create a user

7

You'll then be logged in and taken to the Home page where you'll see the camera feed
